

Alagubalakumar Narayanan

Chief Architect - Technology
Vivriti Capital

How has working with Vivriti Capital aligned with your career aspirations and goals?

My career aspirations are fuelled by a variety of factors. I am a person who has strong ambitions, a passion for technology and is motivated. I have always wanted to be in a role that has a direct impact on the growth of the company and Vivriti gives me that opportunity.

How is technology helping NBFCs to disrupt the financial services space with new-age products? What are the interest areas in the space currently?

India is amongst the fastest growing fintech markets in the world. The market size of the industry was US\$50 Bn in 2021 and is estimated to be more than US \$150 Bn by 2025. Today, tech-driven initiatives like digital payments and AI are driving the country towards achieving a cashless economy and is directly impacting the customer experience.

How does technology add to the business at Vivriti?

As a lender, turnaround time plays a major role in customer experience and satisfaction. Swift and fast disbursements will not only benefit the customers' growth but also the organization. At Vivriti, technology plays a major role in speeding of credit decision, disbursements, collection, investment predictions, and customer services, etc.

What drives you at this organization and how can Vivriti accelerate one's career growth?

I believe commitment and my passion for technology is what drive me. Vivriti, as a major player in the lending ecosystem, must continue to adopt different technologies to accelerate one's career growth in tech space in AI/ML, DevOps, SecOps, etc. and functional areas in finance and investments.

Any message that you would like to share with the new joiners.

The success meets at correct co-ordinates of time and place.

Vivriti is a place where you constantly learn on the job and are always given opportunities to step out of your zone. If passion is what drives you, then Vivriti is where you should be!
