

Tell us about your journey at Vivriti. How has working with Vivriti Capital aligned with your career aspirations and goals?

It's been close to two years since I joined Vivriti and just like everyone else in the team, it feels much longer 😊 Being part of the Strategy office, the exposure has been unimaginable, and the role enables me to find a deeper understanding of the financial services space. Working closely with the leadership team and engaging with investors has been an enriching and learning experience.
