## Vilas S Utekar

Manager - Facilities and Administration, Vivriti Capital

## Tell us about your journey at Vivriti Capital

I began my journey in October 2018 as a facility Manager. I spent four years as a consultant with Vivriti Capital, and within a year, I learned a lot about office work and experienced significant career growth. I enjoy collaborating with the team and sharing my experience to guide future office planning. I was thrilled when Vivriti took me on payroll in February 2022 considering my overall performance.

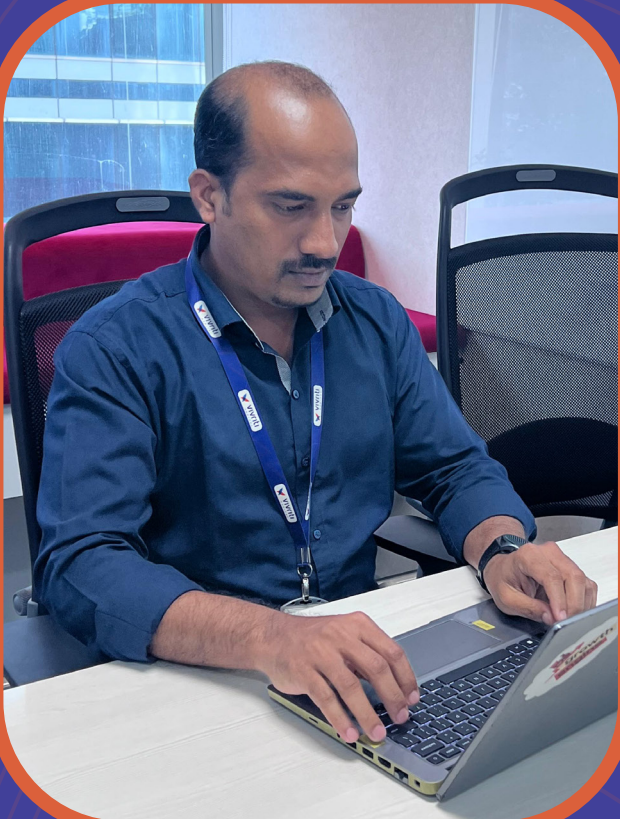

### What is the first thing you liked about Vivriti after joining?

From my very first day, I knew I was part of something dynamic. I have had the opportunity to work on some exciting projects that have not only enhanced my skills but also deepened my understanding. Leading smaller offices (North & West branches) has been pivotal in shaping my professional growth. I enjoy the yearly office offsite. Vivriti has given me the first international trip in my life.

**What is the best memory of employee engagement at Vivriti you have till date?**

My best memory has to be the VPL (Vivriti Premier League) and annual offsite, where we all come together as a team outside the office setting. It is a perfect blend of fun, teamwork, and bonding. These moments make you appreciate the vibrant culture that Vivriti nurtures.

### What sets Vivriti apart as a brand?

Vivriti's commitment to innovation and financial inclusion sets it apart. The brand's focus on making finance accessible to all through cutting-edge technology and tailored solutions shows its dedication to transforming the economic landscape. I am proud to be part of a company that continuously drives change with a purpose.

### What message would you like to share with the new joiners?

My message to new joiners is to always stay curious and never hesitate to ask questions. Vivriti is a place where every idea matters, and if you are proactive and willing to learn, the opportunities here are endless. Immerse yourself in the collaborative spirit and make the most of the mentorship available to you.
